STATE OF THE SUGAR TRADE.
Extracts from Williams, Dimond &
Co.'s Latest Stock Quotations.
NO CHANGE SINCE LAST REPORT.
Demand in the Local Market for Raws
and Refined—Coming Discussion of
the German Sugar Law—Late Advances
from New York Show Bullish Tenor.

SAN FRANCISCO, April 26.—There has been no change since last date in the prices of Western Sugar Refining Company either for the local market or for export. Prices are quoted as follows: Cube, crushed and powdered 5 1/2c, dry granulated 4 1/2c, confectioners A 4 1/2c, magnolia A 4 1/2c, extra C 4 1/2c, golden C 3 1/2c, D sugar 3 1/2c. Price for export 4c for granulated.
The demand in the local market for refined sugars continues fair, but the large importations from Hongkong, together with smaller quantities from other countries, has attracted the attention of the local refinery to a considerable extent; there having been several meetings of the large jobbers and the refinery to devise some means whereby these importations may be limited.
Basis—According to sales reported in New York, there has been the following changes since our last circular: April 2d \$2.77, 3d 2 1/2, 9th \$2.77, 12th 2 1/2, 17th \$2.77, 19th 2 1/2, 20th \$2.77, 22d \$2.82, 24th 2 1/2, and since then no change.

Eastern and Foreign Markets.—We have to note a firmer feeling and an advance in prices of sugar in this country. Foreign advices have also ruled firm. The London market declined early in the month, but later has shown an improvement. For some time past importers in New York have been strong in their views and endeavoring to advance prices, and as will be seen by above quotations, have succeeded. Considerable business has also been done by speculators. London quotations for beets since April 1st have been as follows: 2d, 9s 3 1/2d; 3d, 9s 3 1/2d; 4th, 9s 3 1/2d; 5th, 9s 3 1/2d; 9th, 9s 2 1/2d; 11th, 9s 1 1/2d; 17th, 9s; 18th, 9s 1 1/2d; 19th, 9s 1 1/2d; 20th, 9s 1 1/2d; 23rd, 9s 2 1/2d; 24th, 9s 2 1/2d; 25th, 9s 3d.

Our latest mail advices from London, of April 10th, state that the near approach of the holidays, as well as the more reasonable weather favoring sowings on the Continent, have had somewhat depressing influence on our market, especially as the subsidence of flooded rivers must bring larger supplies to Hamburg, which have to be disposed of. The transactions done are unimportant and show a further slight decline in value. The general position has not changed, and with such large supplies at hand it seems almost that only some extraneous circumstances can give increased animation to business. The weather during the next four or six weeks will affect the market almost as much as the extent of sowings, which are supposed to show only a very moderate diminution. The German sugar law will come on for discussion after the holidays, and if premiums are raised the other countries will probably follow suit, which uncertainty may encourage cultivation of roots as a speculation. Otherwise the German private growers (who cultivate about half the crop) are supposed to reduce their sowings a little, whilst factories will sow fully as much, or slightly more. In Austria, the Sugar Commission, now sitting, recognizes the advisability of reducing if the other countries reduce, and opinion in France favors a moderate diminution, so that Europe probably will show some reduction which, however, may be of less importance than the influence of the weather. A late spring is not favorable, but it is pointed out that in 1889 this did not prevent a large crop being grown.

Our latest mail advices from New York of April 20th state that the feature of the market for raws has been principally in its uniform tone, with a little feeling of slightly bullish tenor; yet the sellers have accepted former rates without much objection, and buyers have met them readily, both on parcels here and to arrive. The most pronounced strength was on distant offerings, and for these in many cases the only way in obtaining accommodation was to advance bids. Continued liberal receipts with the same moderate meltings of only 20,000 tons, have caused a further increase in the stocks, which are now near the 200,000 mark. There has been a growing feeling that there should be an improvement in the price of raws, but it is recognized that Europe is an important factor in the situation, to which attention must be directed, more especially for the future of the market.
In refined only a moderate business has been transacted, but the most important feature is the apparently opening disposition to an improvement in Europe. Both raws and refined (German sugars) are up 1 1/2d. Foreign markets must be closely watched for they will give important intimations for refined prices. There is no question that the prices of refined in this country will be advanced generally at the earliest moment that foreign markets will warrant its permanency, whether there is any increased business or not. The increase will come with the first season next month.

Muscovados—89 test, net cash, duty paid, quoted at 2 1/2-10c, 96 centrifugals, 8c.; granulated \$3 80; showing a difference of 8c. Last year net cash 89 test Muscovados were quoted at 2 1/2 c.; 96 test centrifugals, 2 1/2c.; granulated, \$3.98 difference \$1.05. London cable, as a date, quotes Java No. 15, D. S., 11 fair refining, 9s; first marks German granulated, 10s. 10 1/2d f. o. b. Hamburg, equal to \$3.67 net cash, delivered New York, duty paid. Total stock of sugar in four ports U. S. April 18th, 194,355 tons against 173,110 tons the previous week, and 236,717 tons last year. Total stock in the six principal ports in Cuba, by cable, 350,000 tons against 330,000 tons the previous week, and 271,293 tons last year. Total stock in all the principal countries 2,626,335 tons against 1,883,331 tons at same time last year.

Our latest telegram from New York today quotes London beets 88 test f. o. b. Hamburg, April, 11s. 3d; May, 11s. 3d; market steady. New York market for raws firmer and improving slowly, with good demand but little sugar offered. Sales today of Cuba centrifugals, sail cargo to speculator, equivalent in long price to 3 1/2c. C and f. sale 8300 bags to refiners, equivalent in long price to 3 1/2c. Estimates of European beet crop unchanged, also estimates of cane crops unchanged. The Cuban insurrection is likely to cause some reduction in spring plantings. Trust certificates, common 109 1/2 c; preferred 98 1/2c.

RICE, HAWAIIAN—Receipts 2720 bags. Demand light, price unchanged; we quote 4 1/2c, 60 days. Rice, Japan—Receipts 15,000 bags, of which one third is brewer's balance, unclear. The cleaned article is in good demand and at little higher figure; we quote \$3.72 net, duty paid. Rice, Rangoon—Considerable of this rice, milled here, is being packed in 100 lb. bags and sold to the trade as a cheap table rice. Price \$3.60, duty paid. Rice, Mexican—Receipts 200 bags. This lot is from Carolina seed and resembles a poor island rice. Sold at 4 1/2c, 60 days.

KONA COFFEE—We have nothing new to report since our last circular. The only importation being 150 bags per C. D. Bryant; none discharging. We quote price at 20 1/2 to 20 1/2c.

FLOUR—G. G. Extra Family, \$3.25; El Dorado, \$3.40 per bbl. f. o. b.; Crown, \$3.15 per bbl. f. o. b.

BRAN—Fine, \$11.50; coarse, \$12.50 per ton f. o. b.

MIDDLINGS—Ordinary, \$15.50; choice, \$18.50 per ton f. o. b.

BALEY—No. 1 feed 70c. to 7 1/2c. per ctl. f. o. b.; ground or rolled, \$15.00 per ton f. o. b.

CHICKS—Fair \$1.10 to \$1.15; choice \$1.22 at \$1.27 per ctl. f. o. b.

WHEAT—Chicken 90c. to 95c; milling \$1 to \$1.02 per ctl. f. o. b.

CORN—S. Y. \$1.22 1/2 to \$1.25 per ctl. f. o. b.

HAY—Comp. wheat \$10.50 to \$11 per ton f. o. b.; large bales wheat at \$10.50 to \$11 per ton f. o. b. No cash hay in the market.

LIME—90c. to \$1 per bbl. f. o. b.

CHARTERS—The market has been very strong the past week. Iron ships having been fixed from 28s. 3d. to 30s., U. K., Havre, Antwerp or Dushires, one-third less direct, the latter rate now offered for spot or June loading. Prospects for coming wheat crop continue favorable and a large amount of tonnage to arrive has been closed at rates ranging from 27s. 6d. to 30s., U. K., H. A. or D., usual deduction direct, July to October cancellation.

NATIONAL BAND.

Harry Gillig Wants the Quintette Club On His Yacht.

The National band will have the financial aid of John D. Spreckels in their concert enterprise on the Coast. A series of entertainments, lasting a week or ten days, will be given at the Metropolitan Temple, San Francisco. Spreckels will be reimbursed out of the proceeds, the remainder, if any, going to the band. The trip will be made simply as an experiment. Should the San Francisco concerts prove a success, the band will very likely make other engagements.
In this connection it is learned the Quintette Club, the members of which belong to the National band, will go on to New York in case the band should return to Honolulu after concluding their engagement at San Francisco.
Harry Gillig was favorably impressed with the playing and singing of the boys while here and desires to have them on his yacht for a month or two this summer. For this purpose he left expense money with his agents in San Francisco, should the members favorably consider the project. It is understood Mr. Gillig offered very favorable terms.

Whooping Cough.

There is no danger from this disease when Chamberlain's Cough Remedy is freely given. It liquefies the tough mucus and aids its expectoration. It also lessens the severity and frequency of paroxysms of coughing, and insures a speedy recovery. There is not the least danger in giving the remedy to children or babies, as it contains no injurious substance. For sale by all medical dealers, Benson, Smith & Co., Agents.

Upon the arrival of sticks from the Coast, the Honolulu Lacrosse Club will organize a team.

ON BRITISH CITIZENSHIP.
Lord Kimberley Gives Decision Favoring Walker and Rickard.
SOME LEGAL HAIR SPLITTING.
Hewett Cannot Seek British Protection. Oath of Allegiance Made No Difference With the Others—Thought They Were Doing Nothing Wrong

Though England is generally reported as keeping particularly quiet on the question of citizenship growing out of the recent unpleasantness, Commissioner Hawes has recently received communications from Lord Kimberley giving a decision upon the cases of A. M. Hewett, T. B. Walker and W. H. Rickard.

According to this decision Walker and Rickard are looked upon as citizens of Great Britain and subject to protection from that country. This decision is particularly interesting on account of the letter recently received from Secretary Gresham of the United States, which indicates a policy directly opposed to that of Great Britain. It appears that Walker, Rickard and Hewett are all naturalized citizens of Hawaii; took the oath of allegiance to support the constitution and by-laws, and swore allegiance to the king. Hewett, according to the decision of Lord Kimberley, is not amenable to British protection since he holds a certificate of naturalization. Walker and Rickard, however, do not hold this certificate and have also made affidavits to the effect that when they took the oath they were informed by the King, the Minister of Interior and Commissioner Wodehouse that the taking of the oath would not effect their citizenship as a subject of Great Britain.

It will be noted that the laws of Hawaii, which hold that a person becoming naturalized and afterward appealing to his former nation for protection, shall be guilty of treason, are set at naught by Great Britain. Although the decision as to the citizenship of these men has been rendered no demand has been made by Great Britain for their release or for a mitigation of sentence. The correspondence with the British government has not closed, however. The statements of Lord Kimberley will probably be placed before the Advisory Councils today.

SPARF'S SECOND TRIAL.

Lively Interchange of Words Between Counsel and Witnesses.

SAN FRANCISCO, April 26.—There was quite a little scene in the case of Herman Sparf, charged with murder, in the United States Circuit Court yesterday. Henry Green was on the stand and as he contradicted himself in one or two important particulars. Attorney Smith for the defense got very angry with him and for a time there was a lively interchange of words. Sparf, Hanson, St. Clair and Green were all arrested in Tahiti for the murder of Mate M. Fitzgerald of the American bark Hesper while on a voyage from Newcastle, N. S. W., to Honolulu. They were transferred to San Francisco and on their arrival here Green turned State's evidence. During the cross-examination Smith attempted to show that Green was a London waif who had been picked up and sent to a reform school. From the latter place he graduated into a training-ship and there learned navigation. All these points Green admitted on the previous trial, but yesterday he denied positively that he knew anything about navigation. He insisted that Attorney Smith had insulted him on the previous trial and said he was now going to stand up for his rights.
In answer to various questions, he described the murder of Mate Fitzgerald and gave all the particulars of the oft told story. The attempt to kill Captain Sodergren and secure his wife was a failure. Green told how the order to send a hand forward to bring "the old man up from the cabin" was given, and how no one responded.
"What were you going to do with the old man when you got him on deck?" was asked.
"Well, I don't know. We might

have asked him to have a waltz," was the flippant reply.
A few minutes later Green got angry because he said Smith was "pushing him" because he had turned State's evidence, and almost in the same breath he swore that he did not know what State's evidence meant. The theory of the defense is that Green was the only man in the forecastle who understood navigation, and that he was the leader of the mutiny which resulted in the death of Mate Fitzgerald.
The case went over to Tuesday next.

Kindergarten Matters.

The regular monthly meeting of the various kindergarten committee chairmen was held in the parlors of Central Union church yesterday morning. The reports were very favorable.

The chairman of the Hawaiian Kindergarten Committee reported additions badly needed. Three children were refused admission. It was decided to make room for these notwithstanding the crowded condition of the Hawaiian department.

The foreign department reported everything full.

The principal business of the morning was a reconsideration of the constitution, preparatory to forming an independent association at the end of the year in June.

CIRCUIT COURT OPENS.

Bush and Nawahi on Trial for Conspiracy This Morning.

The May term of the Circuit Court opened yesterday morning, Judge Cooper presiding. The indictments reported were as follows: Republic vs. Patrick Cullen, murder in the second degree, plea, not guilty; Punuku, larceny second degree, not guilty; H. Keawe-mahi, house breaking, not guilty; A. Hermanon, manslaughter, not guilty; J. K. Nakookoo, malicious burning, plea reserved till May 7th; Loo Ting, maiming, plea reserved till May 8th. The case of the Republic vs. Kumuko for malicious injuring was nolle prossed.

The first case to come up for trial this morning is the Republic vs. Bush and Nawahi for conspiracy. This will be called at 9:30. At 9 o'clock a hearing on the Norrie libel case will be held. The remaining cases ready for trial are the Republic vs. C. Mitchell for burglary, the Cullen murder case and two adultery cases.

KNIGHTS TEMPLAR COMING.

Excursion of One Hundred From Los Angeles—Teachers' Vacation.

There will arrive by the Australia on June 21st a delegation of Knights Templar, numbering between 75 and 100, from Los Angeles, Cal. Several of the party will remain in the islands for some months, making excursions in every direction and viewing everything of interest. Others will make a stay of several weeks. During their visit local masons will entertain the visitors by giving a banquet, etc.

The same steamer will bring a large teachers' excursion from San Francisco. Several noted educators will be among the number. Their vacation tour will embrace a trip to the volcano and other points worth seeing.

Indications point to an increased tourist travel during the summer months.

LIGHT VOTE POLLED.

Judge Robertson Elected to the Legislature—Quiet Day at Polls.

Election day was very much like any other day; passing off with no happenings outside the ordinary routine. A. G. M. Robertson was elected to the legislature as representative from the fourth district by 111 votes. The whole number of votes cast was 128, of which seventeen were rejected, not being properly marked. The inspectors of elections in the different precincts had a very quiet, lazy day of it.

The votes cast were distributed in the different precincts as follows: First, fourteen; second, twenty; third, nine; fourth, twenty-two; fifth, thirteen; sixth, thirty-two; seventh, one. In the fifth precinct there were six ballots spoiled, in the fourth, two; the first, three, and the second, two.

FILIBUSTERS ARE COMING.

Great Britain Not to Interfere in Behalf of Liliuokalani.

COLONEL McLEAN IS EN ROUTE.

Ashford Before California Grand Army. Pest-Infested Trees from Honolulu Seized — Reciprocity in Shipping. A Regent Hawaiian Consul.

Advices by the Australia indicate that the Hawaiian exiles are busily engaged in preparing a filibustering expedition to the Islands to reinstate the old order of affairs.

A demurrer to the complaint in the suit of Rudolph Spreckels against the Nevada Bank has been overruled. It will be recalled that Spreckels is seeking to enjoin the transfer from his name to the name of the bank certain shares of stock in an Hawaiian plantation company.

The following are accounts of the filibustering movements of the exiles, taken from late San Francisco papers: "Which is the vessel that is under surveillance by the United States authorities?" is the question that is causing considerable discussion along the water front. It has been openly stated that there is a schooner being fitted out with a miscellaneous cargo for Honolulu, and that that cargo will consist in a great measure of arms and ammunition.

The Government of the Island Republic seems to be fearful of some such movement, as when the last steamer left a patrol was being kept up around Diamond Head and all the landing places which were suitable for a boat of any size.

In this respect Secret Service Agent Harris, of the Treasury, received a letter from Hawaii marked "Very important" by the last mail. It set forth that the above-named shipments were to be made, and asked as a special favor that early news of the movement of the vessel, whose tonnage and rig were given, be sent to the Hawaiian Government.

Consul-General Charles T. Wilder practically admits that a scheme is on foot to send a filibustering crew to Hawaii, and he is very angry over the fact that the news has leaked out.

Once more are stories afloat along the water front and in Federal circles to the effect that a conspiracy is being hatched up here to send a filibustering expedition over to the Hawaiian Islands.

These rumors crop up here regularly after the arrival of each steamer from Honolulu. Almost every mail from the Islands brings warning letters to the Government officers and the Hawaiian Consul, telling them to look out for certain mysterious vessels supposed to be fitting out for an expedition against the Provisional Government.

It is said that exiles Aldrich and Ashford are at the head of this latest movement, but, from what can be ascertained, the alleged conspiracy has not got beyond the talking stage as yet.

There seems to be good reason to suspect that some sort of a conspiracy is on foot in this city and elsewhere to make more trouble for the Hawaiian Provisional Government.

A number of inquiries have been made by persons visiting the water front as to the chances for securing a vessel suitable for transporting "goods" to Hawaii.

ARMY OF HAWAII.

New Chief En Route to Honolulu Will Carry Comparison With Switzerland.

WASHINGTON, April 25.—Colonel R. H. McLean, who has been appointed by President Dole Commander-in-Chief of the Hawaiian forces, left Washington today for Hawaii to enter upon the discharge of his duties.

The Hawaiian army at present consists of 700 well-trained men, with an auxiliary in reserve of 1600 militia. These troops have been likened to the Swiss, on account of their excellence of marksmanship.

Colonel McLean was a graduate of the Naval Academy of Annapolis of the date of 1872, leaving that institution as one of five star members of his class. His career in the naval service, until his resignation in 1884, stamped him as an officer of exceptional executive ability, and one whose military tastes were so pronounced as to make it certain that his proper sphere was in the military branch.

EX-QUEEN AND HARRISON.

Great Britain Sees no Opportunity of Interfering for Them.

LONDON, Eng., April 26.—Replying to a question in the House of Commons today as to whether Hawaii is under the protection of the United States, and if it is possible to approach the United States Government with the object of obtaining proper treatment for the ex-queen, Sir Edward Gray, Secretary of the Foreign Office, said the Hawaiian Republic was not under United States protection, and that Great Britain did not see any opportunity of interfering in the matter.

An answer to a letter of a man named Frederick Harrison, dated San Francisco, will be printed in the newspapers here, claiming to point out the outrageous manner in which British subjects had been treated in Hawaiian prisons.

SACRAMENTO, Cal., April 24.—During the Grand Army session today the courtesies of the floor were tendered to Clarence Ashford, brother of V. V. Ashford, once Attorney-General of Hawaii and commander of George W. De Long Post, G. A. R.

San Francisco, April 24.—Deputy Quarantine Officer Isaac yesterday seized a number of ornamental plants on the steamer Australia, from Honolulu, that were found to be affected with several foreign pests dangerous to plant life in this state.

WASHINGTON, April 24.—Reciprocity between the United States and Hawaii in shipping regulations has recently been brought about by action of the Treasury Department in giving Hawaiian merchant vessels the same advantages enjoyed by American ships.

JACKSON, Michigan, April 27.—A. D. Potter, who is supposed to be the man who recently passed himself as Hawaiian Consul in Chicago, was arrested here yesterday.

Mounted Reserve Drill.

A secret drill of the new Mounted Reserve, of which, it is understood, Alfred Carter is to be captain, was held in the vicinity of Waialae Saturday, under command of Captain Cook, of the mounted police.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden Drug Store and procured a bottle of it."

There is no doubt, however, that the

LATEST NEWS FROM MAUI.

Makawao's Literary Record of Passing Events Makes a Hit.

CONFERENCE OF NATIVE MINISTERS

New School House at Ulupalakua—Waialuku to Have a Road Sprinkler.

Schooner William Bowden Carries Large Sugar Cargo—General News.

(Special to the ADVERTISER.)

MAUI, May 4.—The May meeting of the Makawao Literary Society took place last evening in the parlors of the Paia Foreign Church before a large audience.

The villages of Paia, Hamakua, Haiku, Maunaloa, Kahului and Wailuku were well represented. A unique and delightful programme of events, entitled "The Makawao Magazine—Contents for May, 1895," was successfully portrayed by reading, recitation, vocal and instrumental music, with tableaux serving as vivid illustrations.

On the first page was Scharwenka's Polish Dance, an instrumental piece, by Miss Grace Dickey. Then followed a frontispiece etching, "The City's Fair Pale Daughter," by Mrs. B. D. Baldwin, in a tableau illustrating a selection from Whittier's "Among the Hills," which was recited by Miss Maud Baldwin.

The fourth on the table of contents was a mirth-provoking continued story, "The Adventures of the Card-board Box," read by F. W. Hardy. The fifth was a humorous vocal quartette, "The Three Bumble Bees," by Messrs. C. D. Loveland, H. P. Baldwin, C. H. Dickey and D. D. Baldwin.

The eleventh was Poe's "Bells," excellently read by Mrs. George E. Beckwith. The twelfth, a vocal duet, "See the Pale Moon," was rendered by Misses Milly Beckwith and Kate Watson. The thirteenth was an amusing local "Monthly Record of Events," compiled and read by C. H. Dickey.

Judge Napulou, of Ulupalakua, has resigned, and S. E. Kaleikani, of Wailuku, has received the appointment.

During the week Wailuku has been the scene of a conference meeting of the native ministers of Maui and Molokai.

The new Catholic church at Wailuku, a large octagonal building surmounted by a high tower, is being erected under the direction of Father James.

Mrs. R. G. Alexander of Makawao returned this week after a long visit to Honolulu.

Maunaloa Seminary now has seventy nine girls under its care, the largest number in several years.

A fine new schoolhouse has been recently built at Ulupalakua to take the place of one burned some months ago by supposed incendiaries.

The Wailuku road board have recently decided to purchase a water cart to be used in sprinkling the now dusty roads. Lahaina has boasted of a street-sprinkler for several years.

Miss Helen Wilder is visiting Kahului and Ulupalakua.

Miss Gertrude Whitney is the guest of Mrs. E. B. Carley at Kahului.

The Makawao road board have well completed a new road on the Kahiau side of Wailuku gulch at Pauwela.

The four-master, William Bowden, arrived on the 28th eighteen days from San Francisco. She has taken a huge cargo of Paia and Hamakua-poko sugar and expects to leave Kahului today.

The steamer Kahului is expected from Honolulu either today or tomorrow.

Weather: Warm and dusty.

KINDERGARTEN.

Where have you been my baby dear? Into the loveliest garden near.

What did you find there little one? Dearest things beneath the sun.

What makes your eyes like diamonds new? Glimpses of life beyond the blue.

Dr. J. COLLIS BROWNE'S CHLORODYNE. ORIGINAL AND ONLY GENUINE. COUGHS, COLDS, ASTHMA, BRONCHITIS.

DR. J. COLLIS BROWNE'S CHLORODYNE—Vice-Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORODYNE, that the whole story of the defendant Freeman was utterly untrue, and he regretted to say it had been sworn to.—See The Times, July 15, 1884.

DR. J. COLLIS BROWNE'S CHLORODYNE is a liquid medicine which assuages PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. IS THE GREAT SPECIFIC FOR CHOLERA, DYSENTERY, DIARRHŒA.

THE GENERAL BOARD OF HEALTH, LONDON, REPORT that it ACTS as a CHARM, one dose generally sufficient.

DR. GIBBON, Army Medical Staff, Calcutta, states: "TWO DOSES, COMPLETELY CURED ME OF DIARRHŒA."

DR. J. COLLIS BROWNE'S CHLORODYNE is the TRUE PALLIATIVE in NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.

DR. J. COLLIS BROWNE'S CHLORODYNE—Rapidly cuts short all attacks of EPILEPSY, SPASMS, COLIC, PALPITATION, HYSTERIA.

IMPORTANT CAUTION.—THE IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITATIONS. BEWARE OF EVERY BOTTLE OF GENUINE CHLORODYNE BEARS ON THE GOVERNMENT STAMP THE NAME OF THE INVENTOR—DR. J. COLLIS BROWNE. SOLD IN BOTTLES 16. 1/2d, 2s. 6d., and 5s. 6d., by all Chemists.

STRANGE CASE OF 'MR. JOHN LITTLEJOHN.

Paine's Celery Compound CURES When Ordinary Remedies Fail.

The position of the physician who deals with the nervous and the feeble, the pain-worn, the hysterical, the sleepless, is one of the utmost gravity.

Prolonged strain of mind and body, or of both, is apt to result all too quickly in sudden collapse.

One of the greatest physicians the world has ever seen, who was for years the most prominent man upon the faculty of Dartmouth, realizing the extent of the physician's responsibility, set about to discover a remedy that should build up the nervous system, and cure the ills that result from impoverished blood and diseased nerves.

There was no secret about it. The formula from that time until now has been furnished, whenever asked for, to reputable physicians, and they have time and again examined it, and knowing that it is good, have recommended it to those who are sick.

No other remedy was ever so highly endorsed, and so generally used and recommended by physicians.

Dr. William Horne, who for a dozen years has been one of the most prominent editors, and of writers for, medical journals, writing in May of last year, said:

"I have been using Paine's Celery Compound for six weeks for myself and wife. I am, like all graduated M. D.'s, opposed to all proprietary remedies. I was induced to try the Celery Compound after reading Commodore Howell's letter. I feel conscientiously inclined to testify to the building-up qualities of the Celery Compound. I am just finishing the sixth bottle. I have recommended the Compound to many."

"For five years I have been afflicted each season with excessive nervousness; so sensitive was I that any little noise caused me to start and flutter. This extreme nervous condition induced an unpleasant affliction of eczema, a partly nervous disease with me. For five seasons I have been full of itching, red eruptive spots. Three weeks ago, this condition came upon me again, but with much more excessive nervous prostration. I commenced taking the Paine's Celery Compound. My unpleasant nervous condition is entirely gone. I sleep well and have a good appetite. My dyspepsia is gone and I easily digest all I eat."

Is there a sick person who can afford not to try a bottle of this wonderful remedy?

NEEDS OF HAWAIIAN BOARD.

Rev. O. P. Emerson Gives Five Minutes Talk on Its Work.

ONE OF MR. BIRNIE'S NEW IDEAS.

People to Know Necessities That Call for Money—Board's Labors Divided into Three Departments—North Pacific Missionary Institute—Etc.

Five minutes of Sunday morning's service at the Central Union church was given to a talk by Rev. O. P. Emerson upon the work of the Hawaiian Board. This address was made in pursuance of a new idea introduced by Rev. Mr. Birnie to bring at least once a year the people of the Church face to face with the heads of the various benevolent organizations towards which the Sunday morning offerings are expended. Mr. Emerson spoke as follows:

The Hawaiian Board of Missions is composed of a body of men, nine of whom are natives and eighteen whites, chosen by the Hawaiian Evangelical Association, which meets each year in June in this city.

This Board has six missions, two in the foreign and four in the home field. Three of the four home missions are, in a sense, foreign missions, for they are carried on in the interests of those who have come to us from foreign lands. Our other home mission is carried on in the interest of the Hawaiians in furtherance of the work begun among them by the missionary fathers. It has three departments: evangelistic and church work, school work, and the department of publications, business and accounts.

This last department costs the Board about \$1200 a year. It is really conducted in the interests of all the missions. Perhaps you do not know that we have a book room, corner Fort and Merchant streets, where the business of dispensing books, mission mail matter, etc., is attended to. Bibles and testaments in various languages are to be found there on sale. A very important branch of this department is that of the treasurer, Mr. Hall. I am anxious that you should become acquainted with his department, for he is a much burdened man. I can size up the treasury by his looks. An empty treasury makes him sober, and sometimes sleepless. He is best comforted then by contributions.

The department of education requires about \$3650. The Hawaiian Board has four schools—two girls schools, a boys school, and a theological school. These are all boarding schools; and with their associate schools, one on Maui, one on Kauai and the Kamehameha schools in this city, are doing the work that shall make refined native Christian homes a possibility in the land. Our Hilo boys boarding school is carried on without cost at present to the Board. The wife of its associate principals have brought this about, yet they should not be left without support when the difficulty comes and they ask help.

To the Kohala and the Kawaihau girls' school the Hawaiian Board stands pledged to the extent of \$3000 or \$1500 to each respectively. The North Pacific Missionary Institute is our theological school. In it is trained our native ministry. Under the charge of its efficient principal it is run most economically, and costs the Board only about \$650 a year. There is now an attempt being made to raise the standard of this school. There is connected with it an English department, under the charge of Rev. Mr. Leedingham. He would be glad to receive such books as second hand English dictionaries and commentaries. Dr. Hyde has received for the school a partial endowment of \$3000 \$7000 more is needed.

The church and evangelistic work makes a requisition on the Board of about \$1800, a small sum for so important a work. We have fifty-six native churches under the charge of about forty pastors. These Hawaiian churches are supposed to be independent, but they are only nominally so. They are really very dependent on their white neighbors, and it is to the credit of many of our planters and business men that they have been so generous in their contribution to these churches.

Poor as the native pastors are, they bear their poverty with dignity and bravery, and are really a happy lot of men. They are the best of the Hawaiians and are leaders in virtue. We need at least \$200 in aid of the most destitute of them. At our Maui meeting last week, one man reported that he had received only \$18 during the last half year. His name was added to the list of those for whom help is asked of the Hawaiian Board.

Then we want \$400 for our retired pastors and missionaries. These men have not gathered unto themselves much riches outside of the kingdom of heaven. There is also the support of our missionary at the leper settlement which has to be counted in. He costs us \$250, and he earns his money. Our evangelistic work costs us very nearly \$300 a year, and the summer work of the theological students requires \$150. They go to the destitute parishes where they get almost no support.

Once more, our annual meeting costs us \$300. The pastors and delegates come together here from the ends of the group to counsel together and to be brightened and quickened and cheered by each other. The kindly entertainment of your annual tea party given them in the parlors of this church is prized and remembered by them long after you have forgotten it. So, for this very important department of church and evangelistic work we want \$1800. We ask for only \$6450 in all, or if some one will give \$7000 to complete the endowment of the theol-

ogical school, then we will call it \$13,450. We ask this money of you to the end that this citadel of the kingdom of God may be held out here in the great ocean, and that this Republic may have length of days.

Joaquin Miller's Ward

Miss Arabia Miller Oliver, the young Spanish woman who arrived here previous to Joaquin Miller and with whom she is said to have lived while in Honolulu, took her departure on the Mariposa Thursday.

In this connection it was learned that charitable ladies of the city offered the young girl assistance, but their efforts in her behalf were not appreciated, she claiming that no help of any kind was necessary. The delicate condition in which she was previous to departure prompted Dr. McLennan to assist in getting her back to California.

HELD IN HIGH ESTEEM.

Engrossed Testimonial and Substantial Purse Given Wray Taylor.

At the conclusion of the Sunday morning service at St. Andrew's Cathedral an engrossed testimonial signed by a large number of members of the congregation was presented to Organist Wray Taylor by Captain H. W. Miel, one of the church wardens. Accompanying the testimonial was a substantial souvenir in the shape of a check for \$150.

The appended address shows due appreciation for the long, laborious and excellent service rendered the Cathedral by Mr. Taylor:

Wray Taylor, Esq., Organist St. Andrew's Cathedral.

DEAR SIR:—We, the undersigned members of the congregation of St. Andrew's Cathedral, desire to express to you very warmly our high appreciation of the earnest way in which, during the past period of fifteen years, you have labored to promote and maintain the musical services of the Cathedral; and we feel that to your constant and untiring attention to the duties of your post, your very able discharge of those duties, and your kind assistance to the members of the choir, we are deeply indebted.

We sincerely hope that you may derive great benefit and pleasure from your coming vacation, and that you may be brought safely back to Honolulu.

In token of our high regard we beg your acceptance of the accompanying souvenir.

Honolulu, May 3, 1895. Mr. Taylor has been granted a well-deserved vacation from official duties and will leave by the Australia on Wednesday. He will spend the time among relatives and friends in California.

In common with his host of friends, this paper joins in wishing Mr. Taylor a pleasant sojourn at the Coast and a safe return home.

Mauna Coffee Company.

The Mauna Coffee and Commercial Company has been incorporated under the laws of California with its principal place of business, San Francisco. The capital stock is \$300,000, with Robert Capelle, M. Hart, George Kammerer and B. L. Meininger of San Francisco and Philip Peck of Honolulu as directors. The object of the company is to cultivate coffee in Hawaii.

Liberal Church Contributions.

At Kawaihau church Sunday morning announcement was made by the pastor that Mr. T. H. Davies had contributed \$1000 and Mrs. Davies \$500 toward the building fund of the church. In transmitting the donations hope for the prosperity of the church was expressed.

The new steamer purchased by the Inter-Island Steamship Company left San Francisco on the 2d, and is expected to arrive here on or about the 10th. Captain Moshier, formerly of the American ship B. F. Cheney, is coming down as mate of the steamer.

Over a mile and a half of rails have been laid on the new O. R. & L. road between the Ewa mill and Waianae. A large number of men are now at work and the enterprise is being rapidly pushed. An engine was sent down from the railroad shops last Thursday.

Jim Quinn will enter a horse in the 3-minute class on the 11th of June. He will be known as "290."

FLAGS FOR THE ARMY.

Adjutant Egner Presents Two to the Corps—Large Collection

One of the most successful meetings of the year was held by the Salvation Army Sunday night. The hall was crowded. Aside from the regular Sunday evening services, two flags—one a Hawaiian and the other a Salvation Army—were presented to the corps by Adjutant Egner.

The Hawaiian flag was given to the corps by friends in the city and the Salvation Army flag was made by Mrs. Egner. In one corner of the latter is a small Hawaiian ensign. The remainder is made of yellow, red and blue bunting, representing fire, blood and purity respectively.

It is the intention of the corps to use the flags when marching in the street.

The contribution last night amounted to \$35.40, one of the largest ever collected here.

"Free Drink, 3 O'clock," was painted in black letters on a banner carried through the streets by a Salvation Army lieutenant Saturday afternoon. The object was to attract little street urchins, some thirty of whom followed the lieutenant to the Army hall, where tickets for lemonade were given them. A meeting was held and characteristic Salvation Army songs sung.

Jack Sterling has resigned as bookkeeper for the Hawaiian Electric Company. He will be succeeded by Superintendent Goodman. Walter Starbuck, a capable electrician, will be promoted to superintendent. Sterling will remain a few days straightening up matters in connection with his books.

The programme for the 11th of June races has been prepared by the executive committee, and will likely be submitted to a meeting of the Jockey Club this evening. The committee is awaiting word from Kealia in regard to possible entries by Col. Z. S. Spalding's stables.

Hawaiian Gazette

SEMI-WEEKLY.

TUESDAY, MAY 7, 1895.

AT SOME not far distant day may we expect newspaper freaks with an axe to grind to point to the one hundred and eleven votes cast for Judge Robertson as an evidence of the manner in which the Republic is keeping the public under foot? Very likely. The journalistic graveyard is full of bleaching stones marking the dismal failures of men who have endeavored to lie the Hawaiian Republic into disrepute, and there are others old enough to know better who continue to travel in that direction.

NOAH BROOKS in a paper upon the "Reelection of Lincoln" tells the public in plain every day language that on the day of Lincoln's inauguration, Vice-President Johnson was drunk when he took the oath of office. Friends and partisans of that day were prompt to deny rumors concerning the state of intoxication in which the vice-president found himself, and undoubtedly, had Noah Brooks written as he has today he would have been stamped as a renegade, or at least lacking in common sense. Yet why should a vice-president drunk be spoken of with greater care than a police court inebriate? Why should there be a distinction in the references made to a vice-president, or a president for that matter, who suddenly found himself "overcome" by heat and alcohol, and the every day man who carries a "jag"? This form of false official modesty ought to die out and undoubtedly will as reforms advance and alcoholic spades are known as spades.

INDUSTRIAL reports from nearly every section of the United States bring news of mills running upon full time, advances of ten to fifteen per cent. in the wages of employees and a general prosperity. The cause of reviving trade is variously accounted for by the politicians, republicans pointing to the confidence inspired by recent elections and democrats to the revision of the tariff. The New York Wall Street News says: "General conditions continue to improve, and aside from the encouraging strength of prices for commodities at the advance, is the general and unsolicited increase in wages of employees in all parts of the country. To our way of thinking this is even more significant than the advance in the prices of commodities. Employers do not raise wages unless future prospects justify it; wages are the last to be cut down and the last to be advanced, and in either case it is never done until conditions warrant." Whatever set of physicians may have brought it about, the convalescence is of an undoubted healthy character.

HAWAII has a small international affair on its hands just at present, the conduct of which means considerable to the future welfare of the country. This is the reply to Secretary Gresham's letter concerning Mr. Thurston. Drawing the annexation treaty itself could hardly be a more dangerous task. There is a good deal that might be said to Mr. Gresham that under the circumstances cannot be put upon official documents. This country is not in a position to say just what it thinks in every respect, since it does not desire to return evil for evil. In this event the least said the better, and a document announcing to Mr. Gresham that his epistle has been received and the contents taken for what they are worth—a sort of we-are-well-and-hope-these-few-lines-will-find-you-the-same affair will cover the ground quite as well as a lengthy collection of words, which are to be interpreted according to the notion of individual readers. Mr. Gresham must realize that the people in Honolulu are not throwing up their hats at the mere mention of his name.

DIFFERENCES IN CITIZENSHIP. Nothing growing out of the recent unpleasantness is more interesting or attended with more serious results than the decisions of the various governments, whose former citizens have made themselves liable to Hawaiian law, upon the question of citizenship. Secretary Gresham has told his people that any disposition of Americans to uphold Hawaiian constitution and law by armed force is practical renunciation of fealty to the United States, at least for the time being. He does not say this man can never become an American citizen except by going through the course of naturalization, but he avers that no man can hide under the wing of the American eagle while fighting the battles of another. Such is the American doctrine of the Gresham regime.

Now comes Lord Kimberley as sponsor of the policy of Great Britain, a government most jealous of the rights of its citizens and inclined to make the weight of the lion's paw felt when it sees fit. It is very plain that Gresham is not copying Kimberley or Kimberley following in the footsteps of Gresham. The British Minister performs a feat of legal hair splitting which from one standpoint he has a perfect right to do and the results of which will be closely watched by the people of the United States as well as Hawaii. It appears that Hawaiian law has been set aside by virtue of the verbal statements of two former citizens of Great Britain. The fact that Rickard and Walker were, as they state, informed that Hawaiian naturalization papers did not effect their British citizenship, removes all responsibility which the wording of the law may imply. Their informants were the King and the Minister of Interior, both of whom are dead, and strangely enough the decision appears to turn on the affidavit rather than the decisions of Hawaiian courts. This is unusual and we fail to call to mind a precedent. Mr. Hewitt has the misfortune to possess a certificate of his naturalization, consequently he cannot look beyond the Republic of Hawaii for protection. This action of the British Government may have a hidden meaning and it may not. There is material for the repetition of an event something similar to the Nicaraguan affair, though with the guilt of one of the subjects self-confessed the mode of procedure will necessarily be upon a different line. The Hawaiian Government can only follow the constitutional law closely and await the outcome. Meanwhile, what does the United States have to say in the matter?

WILL CONTINUE FRIENDLY. There is a hint that Minister Willis's place may become too hot for him, and that there are just as good reasons for calling him *persona non grata* as there were for applying that epithet to Mr. Thurston, but, up to the sailing of the last steamer, he had not received his passports.—The N. Y. Nation. This hint of the Nation regarding the attitude of this Government toward Minister Willis comes as near the true conditions as the majority of its statements on Hawaiian affairs. Whether there are just as good reasons for sending him home as there was to make the same request of Mr. Thurston we leave for the Nation to decide at present, but, notwithstanding a popular cry to that effect, this Government will continue upon its usual friendly terms with American Minister Willis. It must be admitted that in many instances Mr. Willis has been placed in a decidedly embarrassing position, and has had to steer his course quite as carefully as the officials of the Republic. While not prepared at this time to discuss each and every act performed by Mr. Willis, the oft-repeated words "peculiarly situated" are quite as pertinent in his case as in that of American citizens active in Hawaiian politics. He is practically between three fires—the Administration, the American people in the United States and Americans in Hawaii. He is directly answerable to the first, indirectly responsible to the second, and in

duty-bound to pay a reasonable amount of attention to the third. Furthermore, in the official eyes of a foreign minister an American is an American and must receive an equal amount of protection, regardless of the part taken in local affairs. Any neglect upon his part would mean a peremptory demand from his home government for an explanation, if not a recall. He has behind him a government which watches him closely and would be swift to censure an official misstep or failure for personal reasons to carry out instructions to the letter.

The events of the recent revolt were such as to involve grave national questions, and although the American Minister has not been upon the high wave of popularity in the minds of all Americans in Hawaii, he has shown no desire to embarrass the Government. His action in the Bowler matter is certainly appreciated, since it settles the policy of the Cleveland Cabinet, and every American knows what to expect, which is more than could be said previously. Unless the existing feeling between Minister Willis and Hawaiian officials changes perceptibly, his passports will be furnished only at his own request, and as the result of events confined entirely to his own country.

TO TEST JAPAN'S DIPLOMACY. It was the expected that happened when Russia, France and Germany took a hand in the conditions of peace between Japan and China. The cause of the continued silence during the war was a matter creating not a little comment, but when the opposing forces had fought their battles and were well on their way to dividing spoils as they saw fit, it was indeed a matter of surprise that the great powers looked on with apparent listlessness.

As Japan has called upon the United States in bringing the country to its present high standard, it now turns to that country in the present emergency. So far as China is concerned that country ought to feel fortunate in making the terms proposed by the commission. It was practically at the mercy of Japan and had the war continued, a much larger territory must have fallen under the control of the latter power.

It is only the fear of the results of an egotistical appreciation of Japanese ability, that sanctions the attitude assumed by the objecting foreign powers. Japan naturally expects a full return for her armed effort and the diplomacy necessary to keep her enemies at arm's length and all hands peaceable will test her powers of self-control to the utmost. If the tenor of Japanese harangue is to be taken as a criterion the opposition of all the powers on earth will not deter the annexation of every acre of territory asked, and it might be a good lesson to the common people anxious for war to have a taste of fighting with the organized forces of either Russia, Germany or France. More than one successful schoolboy has been benefitted by a spanking. The controlling power will, however, probably be a steady and careful one, repressing any further resort to arms against China or any other country. With Formosa and practical control of Korea, Japan has quite as much territory as she requires for the development of national industry and commercial power.

EVERY British subject who has taken the oath of naturalization will begin to look about for proof that he did not know what he was doing or his friends told him he was all right whatever happened, when he swore allegiance to the king and to support the constitution of Hawaii.

Joaquin Miller, the old poet of the Sierras, has returned from the Hawaiian Islands. He informed an Examiner reporter that "the waves of the Pacific are like blue elephants that pass you along, and that island down there is half way to paradise and 'only man is vile.'" You are right, Joaquin, this earth is all right to live upon if man could only be made better.—Dunsmuir News.

BRITISH IN NICARAGUA. England's blustering attitude assumed toward Nicaragua is a characteristic method which large nations have in dealing with small ones, and a part of the programme by which England keeps up its reputation as a jealous protector of the interests of its citizens. There is nothing unreasonable in the British demand for reparation of some sort for the imprisonment or injury done Mr. Hatch or any other of its citizens.

The United States might present the same demand on account of the part its citizens played in the Mosquito reservation affair, but we doubt very much if it would have accompanied its demands with the bulldozing bravado of England. In the present instance, although England's process of settling international difficulties is sanctioned only by the power of "might makes right," the United States can hardly be expected to interfere. There can be no doubt that England is arbitrary in not admitting the settlement of the indemnity to arbitration, but, until a disposition is shown to obtain a permanent hold upon Nicaraguan territory, even the Monroe doctrine would not necessarily give Americans an excuse taking a hand in the affair.

It will be remembered that England was the last country to recognize the "paramount sovereignty of the Government of Nicaragua," and it may be expected that the British will take advantage of every opportunity to make trouble for that Government in consequence of the loss of control in the Mosquito reservation, but today, as formerly, any attempt to gain territory can only be looked upon as an overt act and war with the United States might ensue. England realizes this and will doubtless keep its hands off territory whatever it may do toward getting funds out of the Government.

REV. MR. BERNIE has any quantity of good ideas which he is putting into practical use in this country, and that introduced yesterday, of bringing the church people face to face with those who are carrying out the benevolent work of the church is by no means the least to be commended. Nothing can inspire a generous spirit more than a knowledge of what use is made of the money dropped in the contribution box every Sunday morning. The amount given may be small but it will increase according to the interest created by the concise manner of announcing to each member, not alone of the church but of the congregation, the work that is being done to advance christian civilization and elevate the moral condition of their fellow man.

VOICE OF THE PRESS.

A member of the diplomatic corps, long in the service and well versed in the procedure, said in regard to the Thurston-Gresham affair recently: "The books do not contain a precedent warranting a demand for a minister's recall because he has stated to the public or the press a condition of facts within his country. The contrary was expressly held by Mr. Webster when he was Secretary of State and also in a Spanish case. In the case of Mr. Thurston he was under no obligations to give to the State Department information of the sentences imposed on those convicted of rebellion. The department has its own medium of information in Mr. Willis. On the other hand, there is no precedent against Mr. Thurston's giving information to the press before or after giving it to the department as to the sentences of the rebels. It was information as to facts which had actually occurred, and not of subjects involved in diplomatic negotiations. The precedents are agreed that a minister should not communicate with the press or give opinions on purely diplomatic questions, but he is always at liberty to state conditions of fact."—Washington Star.

From the Congregations.

MR. EDITOR:—In your notice of the testimonial presented to Mr. Wray Taylor occurs a mistake which might give rise to a misapprehension as to the signatures to the address. The word "congregation" should have been "congregations," and the address was signed by the Bishop of Honolulu, the Rev. Alex. Mackintosh, Rev. V. H. Kitcat, the wardens and members of both congregations. H. W. M.

OUTING DAY AT PUNAHOU.

How Its Observance Has Changed In Recent Years.

MR. EDITOR:—Now and again we hear school boys and girls of fifteen, twenty or thirty years ago speak of "the picnics we used to have." Their eyes shine as they recall days of rambling spent in our rich, verdant valleys with this or that company of school fellows, and one or another well-beloved teacher, as guide or associate. On anniversary days we listen as in a dream to accounts of Punahou good times long ago. Sometimes we sigh as we think that there is a lack of enthusiasm for the woods and hills among our children, and we try to content ourselves with a popular idea that these are more scholarly times—that modern requirements are much greater and that schoolroom work is of a highly evolved sort. No doubt, indeed, with the years we have grown more studious in trying to read our way out of the huge wall of books ever being built up around us by the increasing number of thinkers and writers in the world. But action and reaction are equal. The world is growing young again. A clarion note has sounded through the schools and colleges of America: "Books! 'tis a dull and endless strife; Come, hear the woodland linnet, How sweet his music! on my life, There's more of wisdom in it."

And hark! how blithe the throstle sings! He, too, is no mean preacher. Come forth into the light of things, Let Nature be your teacher." A ready response to the call has come. Nature, like the Bible, too often a sealed book to the masses, is now open. Laboratory work largely takes the place of text books in science; individual experiments by the students largely replace the experiments performed by the instructor alone. Further still, schoolroom doors swing to behind classes who go out into Nature's own pasture, lambs for their intellectual browsing.

Punahou of today offers something better than the old-time picnics in the newly established outing days. How often these will come, we do not know, but there might be at least one in every term. Surely botany without flowers and zoology without birds, bees and butterflies, would be dead languages not living voices. The first of these outing days at Punahou was last Friday. The students were divided according to the purpose of study and taken by the different instructors of the school to localities favorable to the subject and mood of the class. President Hosmer led a company up Manoa valley for illustrations of physical geography lessons. Dr. Lyons challenged a group of mountaineers for a scramble to the summit of Konahuanui in search of rare ferns and geological specimens. On the summit of Tantalus, in the crater, is a rare nook for ferns, and there Mr. Crockett took a party of collectors for the spring herbarium. Perhaps the merryest excursionist followed Mr. Dodge up Punchbowl, sketch books in hand, to bring home ambitious representations of Lunalilo Home. We have not heard of any native poems resulting from an expedition of a literature class, but rare opportunities were afforded for odes to Spring, May Day songs, "Summer is coming," and the like.

This fashion of Outing Days prevails in the Eastern schools and colleges. "Arbor Day," "Field Day" and "Shore Day" are full of delightful suggestions to one who has roamed through New England fields, spotting at every turn some new treasure for herbarium, or clambered and slid over salt-strewn and wet rocks for dear little crabs and charming barnacles.

Why not have outing days in all our schools—for the sake of teachers as well as scholars? Shame on many of us men and women who hear naught but the clatter of tongues at afternoon teas, the rattle of sewing machines, the din of news boys, street cars and counting rooms, whose eyes are open only to laces, to silver or to dust.

"The world is too much with us, Getting and spending we lay waste our powers; Little we see in Nature that is ours; We have given our hearts away, a sordid boon!"

True, most true, great high priest of Nature, "The world is too much with us." Help us to learn with the children that if we but come to Nature with open eyes, ears and hearts we may learn wondrous lessons, for

"One impulse from a vernal wood May teach you more of man, Of moral evil and of good Than all the sages can." CORRESPONDENT.

Timely Copies

April 12, 1895.

Any one who reads Mr. Ashford's sayings to San Francisco reporters must read between the lines to understand that he does not mean half that he is reported as saying. Mr. Ashford was long enough in Hawaii to convince the people that he can tell the difference between "a 'awh han a 'au saw," and that he understands full well the value of silence. He has about as much intention of heading a filibustering expedition as he has of returning here and standing as a candidate for office. C. W. is a little joker and the interview with the reporter in "Frisco was one of his jokes. When Mr. Ashford left here, his main thought was to do something in the behalf of his brother. The people here who know him will not believe that a filibustering expedition is in the line of assistance to that person.

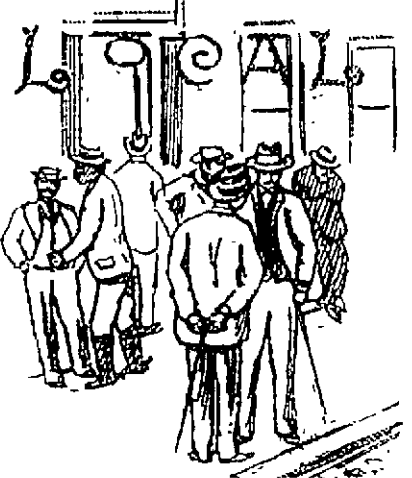

Some time ago, we purchased a lot of European wire and immediately afterward some parties circulated a report that the quality had been affected by some unknown cause and that it was not up to the standard of the American product. We had a half dozen coils of the wire tested at the Iron Works and it showed a tensile strength of 2760 pounds. When this report was published in this column, the wire was sought after by plantation managers and individuals from Niihau to Hawaii. The other day, to oblige a skeptic, we ordered a hundred coils of American wire from the Coast and as it reached the store, we sent a half dozen coils to the foundry to have it tested. The result showed a tensile strength of 768 pounds or about 2000 less than the European article. We violate no confidence when we tell you that this American wire will not be sold by us. We have an abundance of the European article and can supply all sizes and in any quantity. This wire with the steel stays and galvanized washers comprise the material necessary to use in making the celebrated Jones' Locked Fence than which no stronger, cheaper or better fence was ever made.

Our new stock of Dietz Oil Stoves are going as rapidly as can be expected with times as hard as they are. That it is a good stove, no one who has ever tried them will deny. They are absolutely safe, because there is no possible way by which they can explode; they are free from unpleasant odors, because they are made on the most approved plans; they are economical, because directly you are through cooking you extinguish the flame. Twenty-four dollars invested in one of these stoves will save you a pot of money in twelve months.

The Australia brought us the latest thing in tea strainers; they fasten close up to the spout and the leaves are bound to be caught in the strainer. Handsomely nickel plated and we sell them for fifty cents.

We are having a run on the Alaska refrigerators, because they are the best ever brought to Honolulu. We sold one to a lady who had been taking twenty pounds of ice a day. When we assured her that she could reduce the quantity half the amount, she laughed at us. It was just ten days after she commenced using it that she came in and reported that she now buys just half the quantity of ice she formerly did.

The Hawaiian Hardware Co. Ltd. Opposite Spreckels' Block. 607 FORT STREET.

Sugar is still 3:07.

Musical at Punahou this evening.

Mrs. L. Severance and daughter returned to their Hilo home yesterday.

Alexander Lyle is going to the Coast for a lengthy visit about June 1st.

Miss Lyons, daughter of Professor C. J. Lyons, returned home by the Australia.

Mrs. A. R. Laws arrived by the Australia to visit her son, Auditor General Laws.

J. J. Egan and family expect to leave for New York by the China, due here on the 20th.

G. Spuymeyer, one of the deserters from the H. F. Glade, was taken to the hospital yesterday.

C. B. Wells, sergeant of the mounted police, has been promoted to second lieutenant in that body.

The National Band will leave by the Australia. It is said that Spreckels is behind the enterprise.

The small boys are practicing very earnestly for the tennis tournament to take place on the 18th.

A new cash grocery store will be opened in the Waring block Wednesday by S. Lowden and P. J. Voeller.

Professor Berger's band practiced six new pieces at the barracks yesterday morning. All are very catchy.

A luau was given by Mrs. C. A. Brown at her Waipio place Saturday afternoon. Some fifty guests were present.

The yacht Spray, a craft that has caused the custom house officials no little trouble, arrived on Saturday morning.

Under the management of E. D. Dowsett, the ranch of J. I. Dowsett at Ulupalakua is undergoing many improvements.

It is rumored that the Japanese theatre is not a paying investment. It will likely be discontinued in the near future.

Captain Godfrey sent a fine bay horse down from the Coast as a present to John Ena. The gift is highly appreciated.

Sugar bags by the thousands are piled up on the Oceanic wharf awaiting shipment around the Horn to New York.

Some of Professor Berger's band boys will go to the Coast for a trip during their vacation, which will probably be in July.

Sam McKeague has been commissioned as aide on the staff of the commander-in-chief of the Grand Army of the Republic.

A number of fine riding and driving horses arrived recently from the Coast for the Club Stables. Part of the consignment is offered for sale.

The second game of baseball in the Junior league was played on the league grounds Saturday morning. Score—St. Louis College, 13; Royal School, 5.

All collections for the shell exhibition at Bishop Museum must be at the museum not later than Wednesday. The curator will be on hand from 9 to 4 o'clock.

Work is being rapidly pushed on Kawaihae church. One-half of the new timbers have been put in place. A temporary floor will be laid and the roof removed at the end of the week.

The new quarters of the Kilohana Art League will be completed by the end of this week. Between Monday and Wednesday of next week pictures from contributors will be received for the May exhibition.

A report last night which lacked confirmation stated that fifteen of the mounted patrol had been sent to Mount Tantalus. Royalist gatherings had been reported there. There was not the semblance of truth in the rumor.

There will be a meeting of the Leprosy Board today. The place of meeting has not been decided on. The object is to consider different leprosy treatments and decide on those to be used in experiments at Kalihiki receiving station.

Edwin A. Jones left by the Ki-

nau for Hilo. He went to inspect properties in Oloa owned by the Hawaiian Improvement Company. Mr. Jones will return by the same vessel.

Frank Hustace purchased the Alina cottage lease sold at auction by Morgan, Saturday, for \$1100; the Queen street warehouse premises was secured by the I. I. S. N. Co., at \$750.

Manufacturer's Shoe Company has a most unique and extraordinary advertisement. Two young, live alligators are shown in the windows. They attract considerable attention.

A crazy Chinaman was brought from Kauai by the Mikabala Sunday morning. He was so violent it became necessary to handcuff and strap him before he could be taken to the police station.

Robert Halstead, a sugar raiser at Waialua, and who has been living at his Glen Ellen California ranch for most of a year past, arrived by the Australia. He was accompanied by his daughter.

The members of the Foreign Church in Hilo are considering the purchase of a pipe organ. Some of the prominent lady members have the matter in hand. Hilo has an accomplished organist in the person of F. M. Wakefield.

ATHLETIC ASSOCIATION.

Election of Officers Postponed—Road Race Friday Night—Entries.

At the meeting of the H. A. A. C., held in Y. M. C. A. hall last night, election of officers was postponed until a later date owing to the small attendance of members. It was decided to exempt from dues those members absent from the city. There will be a road race Friday night under the auspices of the club. An elegant prize will be awarded the winner. It is expected men from the Philadelphia will join in the event. Entries will open at Thrum's bookstore this morning and close at 1 p. m. Friday. Twenty-five cents admission will be charged. Following is the course: Start at Waikiki bridge; along Waikiki road to King; down King to finish at old opera house.

ALLOWED TO CELEBRATE.

Government Will Grant Request Made By Japanese.

A committee from the Japanese colony have addressed the Government, requesting permission to celebrate the Japanese victories next Saturday. Mock military companies are to be formed and naval floats to appear in the procession which will pass the Government building, stopping for a salute, on the way to Independence park, where the exercises will be held. The Government officials will grant the privileges, making the restriction that no bombs or fire crackers are to be exploded on the streets along which the procession moves. At the park the merry makers will be allowed to make all the noise they please.

Fine Sorghum on View.

A gentleman living at Kaluapalena, Kalihiki, has placed on view at Davis' grocery store quite a novelty in the sorghum line. About a quarter of an acre of this grass was planted in January. After a couple of sprinklings, it was left to the tender mercies of the weather. There has been very little rain since that time, yet the sorghum stalks on show are about seven feet high. The gentleman does not know to what this can be attributed. Watermelon and pumpkin vines planted at the same place have also done remarkably well with the little water obtained from showers.

Evening of Music.

The pupils of Punahou will give a musicale this evening under the direction of Miss Astell. An interesting programme of musical selections has been prepared for the occasion, and a pleasing evening's entertainment is promised. A cordial invitation is extended to any and all who desire to attend.

Flagship Inspection.

The Philadelphia will be thrown open to public inspection Saturday from 1 to 5 p. m. The ship's boats will be at the disposal of visitors during those hours. Small children must be accompanied by their parents or some one capable of caring for them.

New Tennis Members

The Pacific Tennis Club met at the office of F. W. Thrum yesterday afternoon and elected to active membership the following persons: Dr. George Herbert, E. A. Jones, Paul F. De La Vergne and Arthur H. Rice.

LOOK OUT FOR SACALINE.

Commissioner Marsden Deems It Well To Be Careful.

Plant Is Not Indorsed By Agricultural Journals As a Forage Plant—Experiment Station Report.

MR. EDITOR:—There has been so much printed concerning the wonderful properties of sacaline as a forage plant that many persons have been induced to procure the seeds for planting. Lately some of the agricultural journals have been giving some attention to the plant, and it seems that sacaline has little or none of the wonderful properties claimed for it. At least it lacks an indorsement by a responsible party.

It would be well, therefore, for those parties who are experimenting with the seeds to be careful and not set out the plants until we know more about the plant, which will be given a good trial by the Bureau of Agriculture. The appended account, taken from the S. F. Weekly Examiner, will show that the extravagant claims of the seed dealers are not upheld by any results as yet attained.

J. MARSDEN,
Com. of Agriculture.

The many inquirers who have sent to the office for the address of dealers who can supply sacaline roots will be interested in the following caution in regard to the plant from the pen of F. W. Taylor of the Nebraska Experiment Station:

"This is exactly the year for farmers of the West especially, to be on the lookout for anything in the way of a forage plant that will withstand extreme drought; and just at this time so much is being said in favor of a plant going under the name of sacaline that it seems as if those who have seen it ought to say what their observation has shown regarding it."

"About a year ago I received from Dr. Battaline, director of the Imperial Botanic Garden of Petersburg, two of the roots. These were carefully planted and became established in pots, and were then set out in the ground. They grew perhaps three feet in the summer, making a coarse plant looking very much like its first cousin the common smartweed or heart's ease. In the autumn its stalks had become as tough and hard as sunflower stalks, and in fact worse, as they are not so full of pith. The whole appearance of the plant would indicate its relationship to the docks and smartweeds, and my observation of it so far does not promise for it any greater value for forage than the other members of the family named possess."

"But, for fear that what I have seen of it may not show it in a fair light, I have taken pains to get together many opinions upon it from various reliable sources, from which I quote. Dr. Battaline wrote at the time he sent the roots: 'In my opinion Polygonum sacaline is unfit for fodder, because the stem runs rapidly to wood and the leaf becomes leathery. I am persuaded that the enthusiasm for it in France is created by the impudent pretenses of trade.' F. C. Burtis, assistant agriculturalist in the agricultural college of Kansas, says: 'The plants made a very slow growth, and about half of the plants survived the dry summer, and made a growth of a foot and a half.' Professor Georgeron of the same institution says: 'It seems entirely unsuited to the dry, hot climate of the Western States.' This is explained by the fact that the plant is a native of the island of Saghalien, off the north coast of Japan, where the rainfall is very great. Professor N. E. Hansen of the Iowa Agricultural College, where the plant has been growing for a good many years as an ornamental plant, says that they 'do not wish to endorse it in any way until better tested.' Professor Pammel of the same school adds: 'Several members of this family are pestiferous plants, and from what I have seen of sacaline I believe this will be as bad as any, and perhaps worse.'"

"I have never yet seen an indorsement by any one who has actually tried it in the United States, though I have been watching the whole subject with a good deal of interest for a year. The exaggerated claims made for the plant would convince a thoughtful man that it should be tested carefully before being accepted, and the more the matter is investigated the worse it gets. The mildest possible construction to put on the case is that those who are pushing what promises to be a vile weed rather than a forage plant did not know what they were undertaking."

It would certainly be well to go slow in devoting much land to the plant. No dealers in this city are yet supplied with roots, but the Agricultural Experiment Station at Berkeley had a small supply for distribution earlier in the season.

SOCIAL SCIENCE CLUB.

Chief Justice Judd Reads an Essay on Silver.

Chief Justice Judd entertained the Social Science Club at their regular monthly meeting last evening. There were between fifteen and twenty invited guests and members present. After the usual twenty minutes discussion of various topics, Mr. Judd read the essay of the evening, which dealt with "Phases of the Silver Question" as applied to local finances. The paper was very interesting from the facts, figures and new ideas

brought out, and will be given in full in a subsequent issue. Following the discussion upon the topic lead by Professor Scott, P. C. Jones, S. M. Damon, L. A. Thurston, S. E. Bishop and Mr. Judd, the guests were invited to partake of an elaborate lunch prepared by Mrs. Judd.

Foreign Missions.

The regular monthly meeting of the Woman's Board of Foreign Missions will take place this afternoon at 2.30 in the parlors of Central Union Church. A large attendance is specially requested, as interesting matters are to be presented. Mrs. Cooper will speak of her work among the lower classes in Eastern cities.

RAILWAY BOX CARS.

First of the Kind Manufactured by Oahu Railway Shops.

Under the skillful superintendence of Master Carpenter J. A. Hughes, the O. R. & L. car shops have just turned out five of the first box cars ever built in the Islands.

These have been constructed in strict accordance with all latest improvements. It speaks well for the ingenuity of Mr. Hughes and his assistants that, with the exception of the iron work, the remainder was done by them. The wheels will come from the East. The remainder of the iron work was done by the Honolulu Iron Works. The duffer blocks are constructed of ohia wood, on account of its hardness and durability.

During the past fourteen months fourteen flat cars with capacities ranging from 15 to 20 tons, and five box cars with capacities of 20 tons each, were completed by the railway shops.

ROWING ASSOCIATION.

Local Club Representatives Decide to Form One.

The three delegates of the various boat clubs, A. G. M. Robertson, Myrtilles; L. D. L. Ward, Healanis; and J. S. Low, Leilanis, met last night at the home of the Myrtille club representative for the purpose of discussing the advisability of forming a rowing association. They reported a favorable sentiment in this respect, and it was decided to instruct the clubs to appoint three delegates each, to meet on the 13th inst. for the purpose of forming such an association.

The association will decide all classification of crews, dates for regattas, and in fact, have complete government of all races.

Changes that might be advantageous should the association be formed, were discussed.

GENIAL GEORGE BECKLEY.

Will Celebrate His 46th Birthday in Grand Style Sunday.

(From Saturday's Daily.)

George Beckley, the popular purser of the Kinau, will celebrate the 46th anniversary of his birth at Hilo on Sunday the 26th, inst. Pigs, chickens, ducks, fruits, vegetables and liquid refreshment galore was taken on the Kinau yesterday for what will undoubtedly be the biggest celebration of its kind ever given in the Islands.

The people of Hilo are all in a flutter of anxious anticipation over the event. Some fifty invited guests will be present. Purser Beckley has been connected with the Wilder's Steamship Company almost from its inception. He began service in a minor capacity and by assiduous care and attention to business succeeded in reaching his present enviable position. Besides acting in the capacity of purser, Mr. Beckley is a large stockholder in the steamship company and a member of the board of directors.

Pumping Plant Nearly Ready.

Superintendent Andrew Brown is confident the new pumping plant will be ready to start Saturday. The large piping to connect with the mains was expected to be cast yesterday. As soon as the connection is made pumping directly into the mains will be commenced, settling for all time the question of abundant water supply.

Dinner Party On Flagship.

Admiral Beardslee gave a dinner party aboard the flagship last night. Those attending were Minister and Mrs. Willis, F. M. and Mrs. Hatch, Miss Kaufmann, Capt. and Mrs. Cotton, Lieutenant-Commander Ingersoll and Dr. Winslow. Music was furnished by the flagship band.

"Ad" Contest.

McLooney offers a pair of shoes for ten minutes work. An excellent pair of shoes will be awarded the winner of the "ad" writing contest that closes June 15th. See advertisement on page 6.

In the Supreme Court of the Hawaiian Islands.

HEARING MAY 1, 1895

IN THE MATTER OF W. C. ACHI, AN ATTORNEY AT LAW.

BEFORE JUDGE C. J. BICKERTON AND TREAS. J.

An attorney of this Court took a negotiable promissory note of a client to himself in order to procure a loan for his client. Not being able to negotiate the note, the attorney, on the same day, took another note of like tenor and amount which the client secured by mortgage, on the understanding that the first note should be destroyed. The attorney negotiated the first note for value and thereafter negotiated the second note and assigned the mortgage retaining the proceeds. Held, this was deceit and gross misconduct on the part of the attorney, and he should be dismissed from the roll of practitioners.

Held, financial embarrassment is no excuse for dishonesty.

Held, the settlement of the second note negotiated, after the rule to show cause issued, does not mitigate his offense.

The Court declines to suspend the judgment of the Court until the cases the attorney has in Court are disposed of.

OPINION OF THE COURT BY JUDD, C.J.

A rule to show cause was issued by this Court on the 27th March last on the information of the Attorney-General, against the respondent, William C. Achi, an attorney of this Court. The substantial facts of this matter are as follows:

On the 19th March, 1891, one D. Kealohapaulo, with whom the respondent had been doing business, wishing to raise some money, made to respondent a negotiable promissory note for \$300 payable in two years with 12 per cent. interest. Respondent not being able immediately to negotiate this note, on the same day Kealohapaulo, at respondent's request, made another note of like tenor to respondent and executed a mortgage on his lands to secure the same. The understanding was that the first note should be destroyed. Thereafter on the 24th April, 1891, respondent endorsed this first note to Messrs. Allen & Robinson for value and deposited the title deeds of the property mortgaged with them. This note had on the margin "Secured by mortgage of even date herewith." Then respondent, on the 6th May, assigned the second note and the mortgage securing it to Henry Smith, trustee, and received and retained the proceeds. Kealohapaulo paid to respondent the interest on the note held by Allen & Robinson, and on maturity paid the principal to them, supposing that was the only note of his outstanding. Henry Smith in April, 1893, the interest and principal on the note held by him as trustee not being paid, published a notice of his intention to foreclose. This being brought to the attention of Kealohapaulo he paid the interest due and thus avoided or postponed the sale of his property.

After the rule to show cause had issued, the respondent paid the principal and interest of the note and mortgage held by Mr. Smith. The respondent admitted before us that the facts alleged in the information were true.

It is represented to us that respondent had bought real estate and stocks to a large extent, which he was unable to fully pay for, and which he hoped would bring him a fortune, but subsequent depression of values brought him into embarrassments, and it was under this stress that he committed the frauds confessed. It is very often true that embezzlement and financial frauds are committed by persons under pressure of obligations that must be met. This does not excuse or palliate the offense. Negotiating this note, which should have been cancelled or delivered up as soon as the second one which took its place had been signed was a gross and deliberate fraud. The payment of the second note negotiated, after the fraud was brought to the notice of the Attorney-General and the rule issued, though it makes good the persons deceived, does not excuse the offender. The public must be protected against the perpetration of such frauds by persons holding the honorable position of licensed practitioners of this Court.

We are asked to suspend the execution of our sentence until the respondent's cases now pending are disposed of. But it is very uncertain how long a period of time this may take, and we feel obliged to decline the request. While desirous of protecting clients' interests as far as possible, it is their misfortune to have employed an attorney capable of such misconduct, and our duty to the general public as well as to respondent's associates of the bar will admit of no compromise.

Under the authority given us by Section 1066 of to be Civil Code (Compiled Laws page 312) by which practitioners in this Court are summarily amenable to it, and may be fined, imprisoned or dismissed from the roll of practitioners, for satisfactory cause upon the complaint of any party aggrieved by their malpractice, or for non-payment of moneys collected by them for private parties, or for any deceit or other gross misconduct, we adjudge the respondent, William C. Achi, to be guilty of deceit and gross misconduct and order him dismissed from the roll of practitioners, and to pay the costs of these proceedings.

Attorney-General Smith and his Deputy Robertson for the prosecution; W. A. Kinnay for respondent. Dated Honolulu, May 2, 1895.

BY AUTHORITY.

MR. HARRY T. MILL Shas this day been appointed a Notary Public for the Third Judicial Circuit of the Hawaiian Islands.

J. A. KING,
Minister of the Interior.
Interior Office, April 20th, 1895.
1651-3t

MR. WILLIAM KAMAOUHIA has this day been appointed Pound Master for the Government Pound at Kealakekua, District of S. Kona, Island of Hawaii, vice S. Kekumano deceased.

ENGLAND'S SHOW OF FORCE.

War Vessels Land Troops on Territory of Nicaragua.

PORT OF CORINTO IS BLOCKADED.

Nicaragua Disposed to Make Resistance. People Desert the City—United States Will Not Interfere—Looking After Interests in Venezuela, Etc., Etc.

CHICAGO, April 27.—A Times-Herald special from Colon says:

The port of Corinto, Nicaragua, has been closed. The three British warships—the Royal Arthur, Satellite and Wild Swan—have declared a peaceful blockade of the port. Troops were landed shortly after midnight and immediately took possession of the Custom House. There is great excitement in the town.

CORINTO, (Nicaragua), April 26.—(Midnight).—Rear Admiral Stephenson has just sent the following note to the Commander of the Port:

"I have to inform you that in accordance with the notice communicated by me to the Foreign Minister at Managua the three days allowed by me will expire at midnight of Friday, April 28th, and if the demands of my Government have not been complied with it is my intention to occupy the town of Corinto with armed force tomorrow morning, the 29th inst., at 1 o'clock.

"I desire that the military guard under your orders shall be disbanded, and that their arms, with Krupp guns and ammunition, shall be handed over to Captain Frederick Trench of the Royal Arthur."

SAN JOSE, (Guatemala), April 25.—The American fleet has not passed here yet. The Guatemalan Government announces that it has nothing to do with the Nicaraguan-British trouble, but will give the former moral support.

TEGUCIGALPA, (Honduras), April 26.—A project has been started here to establish a trade boycott against England. It is receiving adherents through Central America. There is a large force of troops at Anapala, which can be sent to Corinto if necessary.

SAVING ITS ENERGIES.

Why the United States Failed to Interfere and Save Nicaragua.

WASHINGTON, D. C., April 26.—In explanation of the refusal of the Administration to entertain Nicaragua's appeal for protection against Great Britain, it is now learned that the United States is reserving its energies so as to deal with the Venezuelan question becoming when the crisis, which cannot much longer be averted, is reached. The British Government has been given to understand that the United States does not take issue with it as to the right to exact an indemnity and reasonable reparation from Nicaragua, considering the gravity of the offense committed by the Nicaraguan Government in expelling a British official and British subject from Nicaragua in defiance of all principles of international law and comity.

The fact that Americans expelled at the same time by the Nicaraguans were afterward voluntarily permitted to return to the country has not in any degree served to palliate the offense committed against Great Britain and against civilization, in the eyes of our State Department. In consenting to the execution of the British programme in Nicaragua, however, the State Department was very careful to give full notice that it will not permit the British to annex a foot of Nicaraguan soil nor to interfere with the republican form of government there. It was fully intended that the notice should be taken as the position of the position of our Government in the matter, and it is asserted that the fear expressed by the Latin-American diplomats here that the landing of British troops at Corinto would be the forerunner of a forcible occupation by the British of the territory in dispute between Great Britain and Venezuela is without foundation.

Embassador Bayard at London is well acquainted with the views of the President in this matter, and it may be stated positively that he will not tolerate the occupation of the territory to the westward of the famous Schomburg line by Great Britain.

Secretary Gresham, there is reason to believe, has caused Mr. Bayard to be informed of the position that will be assumed by the United States, namely: That it cannot permit the extension of the British claims to the territory west of the Schomburg line and the occupation of that territory, at least in advance of arbitration. As there is still a remote prospect that Great Britain will so far heed our prior urgent representations as to consent to submit the entire boundary question to arbitration, it may be that Mr. Bayard has regarded it as inadvisable at present to communicate this conclusion reached by the President to the Foreign Office, and that it will be withheld until the clash, which is inevitable in the absence of an agreement to arbitrate the difficulty, occurs on the Venezuelan boundary.

The attempt of the Guayana colonists to run a railway through Venezuelan territory may precipitate this clash. When the proper moment arrives the declaration of our Government it is said, will be communicated in no uncertain terms, and the moderation the United States has shown in the Nicaraguan affair, in which the honor of Great Britain is regarded as involved, it is believed, will cause our course as to Venezuela to be respected.

May Both Come Over.

LONDON, April 24.—The Yachting World learns from good authority, it says, that the Valkyrie and the Alisa prove fairly equal in their con-

tests on this side they may both be taken across the Atlantic to decide in American waters which will be the more likely contestant for the cup. A conspicuous Clyde yachtsman, whose name is withheld, told a Yachting World reporter that neither the Valkyrie nor the Alisa would bring back the America's cup. "The British designers," he said, "do not go far enough. Americans, if given a chance, always did and always will outbuild us. The defender will be a terror, no matter how fast our boat may be," the American's canvas will take her ahead in the races."

Wish to Become Citizens.

NEW YORK, April 23.—Ballington Booth, commander of the Salvation Army, accompanied by his wife, applied for citizen's papers today in Jersey City. His wife said she was also desirous of forswearing allegiance to Queen Victoria. Both handed the clerk their first papers, taken out in New York in 1870 and 1880. According to law the applications were laid over for fourteen days.

Nicaraguan Canal Commission.

WASHINGTON, April 25.—The Nicaraguan Canal Commission held its first formal meeting here today, the members having taken the oath of office and been assigned the temporary use of a room in the State Department. The Commission called upon the President this afternoon to pay their respects.

Reina Regente Found.

GIBRALTAR, April 25.—The Spanish frigate Laia de Luzon has discovered the wreck of the missing cruiser Reina Regente, which was lost while bound from Tangier to Cadiz in March last. The wreck lies midway between Tarifa and Trafalgar in water 109 fathoms deep.

Movements of Warships.

WASHINGTON (D. C.), April 25.—The Mohican has arrived at Olympia, Wash., and the Raleigh, late of Admiral Meade's squadron, at Kingston. It is possible that she will be sent back to Colon. The Castine has sailed from Zanzibar for Mozambique and the Marblehead from Messina for Smyrna.

Chinese Shipped in Coffins.

MONTREAL (Canada), April 23.—United States customs officers have unearthed a gang of smugglers who shipped Chinese across the border to Vancouver, Me., in perforated coffins from St. Johns, N. B.

VOYAGE TO SOUTH SEAS.

Missionary Brigantine Pitcairn Fitting for a Cruise.

The missionary brigantine Pitcairn was in the estuary at Oakland, Cal., on April 26, fitting up for a voyage to the South Seas. The Pitcairn belongs to the Seventh Day Adventists, and was built five years ago at a cost of \$20,000. Captain Graham, the master of the ship, does missionary work among the islands. He is accompanied by his nine-year-old daughter Eldon.

Missionary Graham makes his little ship a floating chapel, and the sailors are compelled to attend religious services twice a day. No grog or tobacco is permitted on board. The members of the crew who have thus abandoned all their old customs and traditions are: First Mate Peter Hansen, Boatswain J. E. Wirge, Steward E. B. Suhr, Cabin Boy Willie Fording and Able Seamen Peter Rosenfeldt, John Chilton and Charles Treinleib.

The captain practices the old rule of doing unto others as he would have them do unto him if circumstances were reversed, and all eat at the same table, sleep in the same compartment, pray together and fare just alike.

All the money used for the construction of the vessel was contributed by Sunday school children throughout the country, and the support of the crew is derived in the same way.

During the five years that the brigantine has been in the mission service Captain Graham has established stations at Pitcairn, Raitoa, Tahiti and Rara Tonga.

VICTORY FOR C. A. SPRECKELS.

Oceanic Steamship Company Will Have to Call a Meeting.

The Oceanic Steamship Company will have to call a meeting of the stockholders to elect a new board of officers. This was practically decided by Judge Seawell at San Francisco on April 25, when he overruled the demurrer to the affidavit of C. A. Spreckels asking the court to order the directors to call the annual meeting of the stockholders.

In giving an oral opinion Judge Seawell said: "It has been urged that it is not a duty of the directors to order an election, and that they have no power to do so. The code provides for an election, and although it does not, in terms, state that it is the duty of the president of a corporation to call a meeting, I am of the opinion that such is its intent. I think that under the by-laws of the company the election should be held annually, and unless the directors have the power it is not easy to see wherein it is vested. Assuming the affidavit of C. A. Spreckels to be true, and of course it is legally true, as it is sworn to and we have no evidence to contradict it, the time has passed when the annual meeting of stockholders should have been called, and in this contingency the demand of C. A. Spreckels is reasonable. I think the directors have refused wilfully—not merely in a dilatory way—to call a meeting of the stockholders for the purpose of keeping themselves in office and to prevent the plaintiff from having representation on the board."

Paul Ienberg has thirteen head of California mules for sale at the Waialae ranch.

OBJECT TO TERMS OF PEACE.

Russia, Germany and France Interfere for China.

JAPAN WANTS TOO MUCH LAND

Great Britain and Italy Indifferent—Manchuria Highly Prized by Chinese—Japanese Likely to Turn to the United States for Counsel—Etc.

LONDON, April 26.—Direct and positive information from official sources is at hand concerning the exact negotiations between Russia, France and Germany on one hand and Japan on the other. The French, Russian and German Ministers separately interviewed the Japanese Vice-Minister of Foreign Affairs, under instructions from their respective Governments, and presented memoranda in which it was stated that the Governments of Russia, France and Germany, upon examining the terms of peace imposed by Japan upon China, have found that the possession of the peninsula of Liao Tung, claimed by Japan, would be a constant menace to the capital of China, and at the same time would threaten the independence of Korea and render it non-effective in fact.

In this sense and for other reasons it would be, it was stated, a constant menace to the permanent peace of the far East. Consequently the Governments of France, Russia and Germany, desiring to show their sincere friendship for the Government of Japan, advise it to renounce the absolute and final possession of the peninsula of Liao Tung. The memoranda of the three Governments make it plain that they were presented in the way of friendly advice to the Japanese Government and are not intended in any way to convey any open or covert menace.

The impression is gaining ground that Japan can rely upon the friendly counsel of the United States at the present moment. The Governments of Great Britain and Italy have made it plain that they do not intend to follow the example of Russia, France and Germany, and the great commercial interests of the United States in the far East, which the Japanese-Chinese treaty of peace would largely benefit, no less than the constant attitude of the United States toward Japan, lead diplomats to believe the United States at this juncture will not fail to make use of its good offices in such a manner as will prevent Japan from being deprived of the fruits of her victory.

The treaty of peace has already been ratified by the Emperor of Japan, and it would be extremely difficult to make any change. The only effect of Russia's, France's and Germany's attitude must be to encourage the party in China which is opposed to any moderate or reasonable settlement, and thus to prolong the war indefinitely.

CHINESE NOT SATISFIED.

SHANGHAI, April 26.—A dispatch from Peking says affairs are in a critical condition. Some favor the continuance of war. The Chinese object to a treaty of peace, and the officers are claiming that the Emperor alone should decide upon the terms. The ratification of the treaty, consequently, is uncertain, and if it is ratified it is feared there may be trouble with the army.

JAPAN'S SELF CONTROL TESTED.

YOKOHAMA, April 26.—The demand made by Russia, France and Germany that Japan refrain from annexing the Liao Tung peninsula is expected to try the self-restraint of the Japanese nation very severely. The Government will find it difficult, if not impossible, to comply without great risk of international trouble. The present situation is viewed with much apprehension. At the same time, it is believed that the Government will be compelled to do its utmost to meet the European views.

Nestle's MILK FOOD

The Agency for NESTLE'S MILK FOOD WITH THE Hollister Drug Company, Limited 513 Fort Street, Honolulu, H. I.

FOR SALE!

THE AHUPUAA OF KALUAHAH ON THE ISLAND OF MOLOKAI Said land contains an acreage of about 1200 acres, 200 of which is the best coffee land and the balance is grazing and kaho land. LEAGUE SERIES OF BASEBALL.

Unknowns Defeat the Stars in the Opening Game on Saturday.

PARTIAL UMPIRING CAUSES ROW

Attendance Not as Large as Expected. Both Clubs Play Fair Ball—Changes Under '95 Rules—Captain Ganzel is a Great Ball Tossing—New Members.

HE opening game of the league baseball series was played Saturday afternoon between the Star and Unknown clubs. While the attendance was not as large as might have been expected, yet a good crowd was present. The absence of music tended to make the occasion less interesting than last season.

The Stars appeared in new and natty uniforms of brown shirts and stockings, with white pants and caps, a large white star adorning the center of the shirt. The club is captained by J. Ganzel, an experienced ball player from the States. He fully demonstrated his ability to play the game Saturday, showing as well extraordinary good management of team work. Ganzel worked hard during the game, and with several others had no errors charged against him.

The Unknown club is made up mostly of last season's Hawaiis, James Thompson playing second and managing the team. They have adopted the old uniform of the Hawaiis, with the change of the letter U in black on white shirts. Woods was in the box for the Unknowns. Chas. Aiwahi, the regular catcher, having received an injury by being hit in the eye while umpiring the junior game during Saturday morning, Tom Pryce was substituted. Chris Willis held down his old position at first and played an exceptionally good game throughout. Woods was in fine form and pitched strong ball, holding the Stars down to goose eggs until the third inning.

Owing to the non-arrival of the new battery for the Stars, Lionel Hart and Harry Wilder played pitcher and catcher. Considering short practice Hart done well in the box. Harry Wilder caught well and fully sustained his previous good record.

Following was the make-up of the teams with positions:

UNKNOWN. POSITIONS. STAR.

T. Pryce..... Harry Wilder
Chris Woods..... Lionel Hart
Chris Willis..... John Ganzel
J. A. Thompson..... J. O. Carter, Jr.
K. Kalani..... Sam Woods
A. Miranda..... W. Wilder
A. Duncan..... W. C. Wilder, Jr.
T. White..... George Angus
L. Miranda..... D. McNichol
Substitutes—C. Brewster, K. Peter, Oliver Carter.

The first game of the series is generally a slow one and made up of costly errors. In this respect Saturday's game was no exception; the contest being a combination of errors, requiring 2 hours and 10 minutes to complete it.

Under '95 rules the pitcher's box is composed of a rubber plate 6 by 24 inches, distant 60 feet—ten feet farther than last year. Once his foot is placed upon the rubber, the pitcher cannot throw to bases. A foul tip if caught counts a strike; fly ball to any point in the infield is out whether caught or missed. This is thought to be for the purpose of preventing forced base running.

The increased distance of the pitcher makes it more easy for batters to hit the ball, giving more fielding and preventing in a degree so much effective battery work.

The game commenced promptly at 3:30 with Harry Whitney as plate and Henry Kaia as base umpires. In the absence of official scorer Judge Antonio Perry, C. S. Bradford acted in that capacity.

Unknowns won the choice and took the field. Under the steady work of Woods the Stars went out in succession in the first inning, with a like result in the second. Miranda scored for the Unknowns in the first. Hart was found early in the game and pounded in every direction, allowing the Unknowns to pile up four runs in the second.

In the first half of the third Willie Wilder and George Angus made first

JOHN GANZEL.
First Baseman and Captain of the Star Baseball Club

runs for the Stars, making the score five to two in favor of the Unknowns, and giving the Stars renewed encouragement.

The Stars failed to score in the fourth through a close and somewhat doubtful decision by Kala against Sam Woods at second. The umpire's decision was questioned by Ganzel and hissed by the grandstand. A hot exchange of words followed and, after

repeated cries from the audience of "play ball," the game proceeded. In the last half Sam Woods erred in throwing to first instead of shutting pitcher Woods out home, giving the Unknowns another tally.

Willie Wilder, Chan Wilder and Lionel Hart scored for the Stars in the first half of the fifth; Unknowns going out in successive order.

Both clubs failed to score in the sixth and seventh innings.

In the beginning of the eighth Ganzel hit to the fence over center for three bases and came home on a passed ball by Kalani, tying the score. The Unknowns caught a goose egg. This was about the only time throughout the game any interest was manifested.

The Stars failed to count in the ninth, though they had players on both second and third bases.

A passed ball by Carter gave Pryce second; Miranda out on fly to Ganzel, advancing Pryce to third. Ganzel made beautiful running play but had to leave first base unprotected. Duncan hit safe for one base, allowing Pryce to score, Unknowns winning the game by a score of 7 to 6.

In the first part of the seventh inning umpire Kaia made what appeared to be a very rank decision in declaring Hart out at second. For this he was booed and hissed on all sides. An appeal was made to Harry Whitney who, after hearing both sides, overruled Kaia's decision and gave Hart his base. Captain Thompson explained that under a certain section of the '95 rules the play made the runner out, and Whitney so declared. At this point umpire Kaia waved his hat and clapped his hands shouting, "Hurrah for our side," plainly demonstrating his sympathy with the Unknowns. This so enraged several of the Stars that the game came near breaking up in a row. But for timely interference, one of the Star players would have slugged Kaia. While it was more than evident Kaia showed prejudice and favored the Unknowns in some of his decisions, he endeavored to smooth these over by rendering equally as partial ones in favor of the Stars during the remainder of the play. After the game Kaia was spoken to rather plainly by one of the Star players regarding his actions as umpire.

It is to be greatly regretted that any friction occurred, especially during the first game. The claim is made that some of Kaia's decisions were based on words spoken in Hawaiian by one of the Unknown players.

The second game of the series will be played next Saturday between the Stars and Kamehamehas.

Notes.

Kamehamehas and Stars next. Behrens is said to be a heavy batter. Chris Willis continues to play good ball at first. Ganzel is an excellent first baseman and captain. Bunting the ball is counted an out under '95 rules.

ADOLPH BEHRENS.
New Catcher for the Stars. He will arrive Thursday and play in next Saturday's game.

A. and L. Miranda did good work for the Unknowns.

Harry Wilder's catching received favorable comment.

Woods has developed considerable speed since last season.

Only capable and impartial persons should be selected for umpires.

Tom Pryce is one of the most active and enthusiastic players in the league.

The association should make arrangements for music during the games.

Look out for the Stars in next Saturday's game with the Kamehamehas.

Lionel Hart, considering the little practice he has had, pitched a strong game for the Stars.

Adolph Behrens and King, the Stars new battery, will arrive by the Alameda. They will play in next Saturday's game.

T. White and A. Duncan, as center and right fielders for the Unknowns, played a very creditable game. Both are excellent batsmen.

The back part of the ground needs attention. A number of dangerous holes there should be filled at once and a roller run over the ground.

Percy Lishman, the crack third baseman, will arrive on Thursday by the Alameda. He will take his old position with the Stars and play next Saturday.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a seige of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by all medical dealers, Benson, Smith & Co., Agents.

MISSION CHILDREN'S SOCIETY.

Instructive and Historical Papers Read by Well Known Writers.

Next Annual Meeting to be Held at Residence of J. B. Atherton in June. Treasurer's Report.

The regular monthly meeting of the Honolulu Mission Children's Society was held at the residence of Professor Theo. Richards, Kamehameha school, Saturday evening. Including sixteen members of Kamehameha Quartette, forty-two were present, making a very good attendance considering the inclement weather. The programme of the evening was unusually interesting and entertaining.

The first number was a musical selection entitled, "God is Love," by Kamehameha Glee Club under the direction of Professor Richards.

The Maile Wreath Committee presented two papers. The first was one contributed by Edward Bailey and read by Mrs. Judge Frear. In this paper the writer presented personal reminiscences of his residence in the islands during the reign of Kamehameha I. Being valuable for its historical facts, it will be preserved by the Historical Society.

Rev. Kenneth Duncan read an instructive work on "The New Old Testament." He said that while it was called an old testament, it was applicable to the needs of the present time in that it helped to make up our knowledge of history and science. Besides this, it assisted in completing our education of the new testament. The prophecies of the old were couched in the new, without which our instruction would not be complete.

Miss Grace Richards sang a pleasing and beautiful lullaby by Chadwick.

The treasurer's statement showed some \$900 needed to complete the appropriation of \$2250 for the year's contributions. Circulars have been sent out stating the needs of the society in this regard. Answers are expected very soon. It is hoped by the society that friends who have not received notice will lend a helping hand. In response to the general call for help, the collection for the evening amounted to \$28, twice the usual sum received.

Nathan Scofield and L. Dumont Timmons were made eligible to membership on payment of dues.

The next and annual meeting of the society will be held at the residence of J. B. Atherton in June. At that time Rev. O. P. Emerson will present the usual paper, and the officers the annual reports. The election of officers for the ensuing year will also take place then.

A meeting of the board of managers will be held at the home of Rev. O. C. Gulick, May 16th, at which time the estimated appropriation for the coming year will be made out. Names to be presented at the annual meeting as candidates for office will be considered at this meeting.

Johnny Hayward will be entered in the free-for-all June races.

Mrs. Eliza Logre
Westery, R. I.

Once I Was Blind
But
Now I Can See

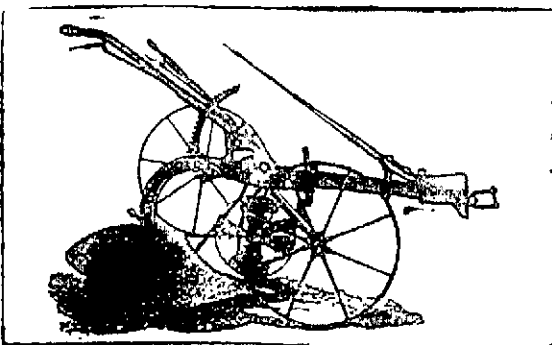

Thanks to Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass.: 'I have suffered everything possible with sore eyes and headache, the sores so severe that I was blind. I tried everything I heard of without benefit, and went to the Rhode

Hood's Sarsaparilla Cures
Island Hospital, but found no relief there. A friend told me of Hood's Sarsaparilla, so I bought a bottle and a box of Hood's Pills.

With More Than Thanks
I want everybody to know that since I have been taking these medicines, I have become as well as ever. My eyes have perfectly healed and the headache is cured. From my picture you can see there is nothing the matter with my eyes now." Mrs. ELIZA LOGRE, Foster Hill, Westery, R. I.

Hood's Pills cure nausea, sick headache, indigestion, biliousness. Sold by all druggists. HOBRON DRUG COMPANY, Wholesale Agents.

The above MOLINE WHEEL WALKING PLOWS we now carry in stock and can fill orders for same promptly. They have been thoroughly tried and the fact that we have sold SEVENTEEN on the island of Hawaii alone during the past two months shows that the planters know a good thing when they see it.

We still sell the well-known Hall Breaker, 12, 14, 15 and 16 inch, which is also made by the MOLINE PLOW COMPANY. One of our latest customers says this:

"Send me a 16 inch 'Hall's' Breaker, I have tried other makes lately and find they do not do the work that yours will." We have all sizes of Plows from 4 to 16 inches; also side hill and furrow Plows.

We have the most complete assortment of Tools of all kinds for cleaning sugar or coffee lands.

Our stock of SHIP CHANDLERY and ROPE has been added to lately and we can furnish almost anything needed.

"WAUKEGAN" BARBED WIRE is far ahead of any other make; try it and you will be surprised with the results. If you prefer galvanized or black plain Fence Wire we have a heavy stock.

If you want a perfect wire stretcher send to

E. O. Hall & Son.

Finest and Cheapest MEAT-FLAVOURING STOCK FOR SOUPS, MADE DISHES AND SAUCES. Invaluable for India as an Efficient Tonic in all cases of Weakness. Keeps good in the hottest climates, and for any length of time. To be had of all Storekeepers and Dealers throughout India. Cookery Books Post Free on Application to the Company. LIEBIG'S EXTRACT OF MEAT Co., Limited, Fenchurch Avenue, London, England.

Of Interest to Managers of Plantations.

A Model Plant is not complete without Electric Power, thus dispensing with small Engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pumps, Centrifugals, Elevators, Plows, Railways and Hoists; also furnish light and power for a radius of from 15 to 20 miles.

Electric Power being used saves the labor of hauling coal in your field, also water, and does away with high priced engineers, and only have one engine to look after in your mill.

Where water power is available, it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers, and all Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.
